

Mobile phone and Camera Policy

I am aware of my responsibilities under the Data Protection Act (DPA) 1998 and following the safeguarding and welfare requirements with regards Information and Records. I understand that mobile phones are an everyday part of life for parents and childminders, and with that in mind I have included a procedure for their use.

I will ensure my mobile phone is sufficiently charged and with me at all times.

A parental permission form will need to be signed prior to care commencing to confirm I am able to take pictures of the children, both with my mobile phone and my camera, in order that I can record activities and share progress with parents.

I will not publish any photographs of the children on any social networking sites or share with any other person without first having parental permission.

I request that children do not bring any personal mobile phones, cameras or tablets to the setting, to ensure the safeguarding of other children in my care.
